From the verified cards

No votes are a floor: roll calls naming her, plus one vote known only from her statement in the minutes (Teen Venture lease, Oct. 14, 2025). Statements not counted: on Sept. 23, 2025 she said she would vote no and then voted yes in a 5-0 vote; on Oct. 14, 2025 she said she was voting no on an MOU the minutes record as unanimous.

Panel 3 and 4 rule: the latest action in the records on that topic, chosen the same way for every candidate. The FY2027 budget vote is not in the database; full minutes stop at Mar. 24, 2026, and only reprints from later packets are held.

Dec. 13, 2022 is outside the Council dates: the roster that day omits this member, and the minutes invite the member in as newly elected.

Records after Mar. 24, 2026 are outside this sheet: full minutes stop there.

Panel 6 rows: the sentence that answers each question's main ask, the same rule for every candidate who returned the questionnaire: open government, keep, change or repeal the comment rule (Q1); audits, what deadline (Q2); rates, approve, change or reject the increases (Q8); generator, the most total cost you would accept (Q9); flooding, the first area or problem you would address (Q7); public safety, your top priority (Q10). Where an answer has no sentence on the main ask, the first sentence of the answer is used. These are statements of what she would do, and they were not fact-checked or edited.

Panel 6: her answers came by Facebook message as ten page images, pages 3 to 12 of the questionnaire, and are posted unchanged.
