# Nicole Helbert

Source list for the candidate sheet

### Time frame of these records: May 14, 2013 to March 24, 2026

This sheet rests on searches that came back empty. The searches and their results are below. Her answers are checked word for word against the text she returned.

## Counts

**Records with her full name: 0.** Search of Town minutes, council packets and meeting transcripts.

**Records with the first name Nicole: 6.** Six packet pages. Every one is a bills-list line for someone else with that middle name, mostly utility refunds, so those people aren't named here.

**Records with the last name Helbert: 1.** 2 2024

## From the verified cards

Panel 3: the Town's numbers are the same as on every sheet; the item-by-item list is in the other candidates' source lists.

7 8 9 x

x x x

Panel 2 rule: the sentence that answers each question's main ask, the same rule for every candidate who returned the questionnaire: open government, keep, change or repeal the comment rule (Q1); audits, what deadline (Q2); rates, approve, change or reject the increases (Q8); generator, the most total cost you would accept (Q9); flooding, the first area or problem you would address (Q7); public safety, your top priority (Q10). Where an answer has no sentence on the main ask, the first sentence of the answer is used. These are statements of what she would do, and they were not fact-checked or edited.
